Vision, Mission, And Program Education Objectives of the Program Computer Science Department

The department of computer science and Engineering is started at 1991. It was established at the inception of the Institute. Over the years, since then, the Department has progressed with a considerable development in its infrastructure, both in terms of its faculty and the other learning facilities

The Department offers a three-year course leading to the Diploma Degree in Computer science and Engineering. The Department is known for its reputed and well qualified faculty having experience in diverse fields. The faculty strives its level best in imparting the latest technical knowledge to the students and conducting the high quality of research. The department has got all the laboratories required to train the students as per the curriculum. The laboratories like python programming, It skills, multimedia, data structure using python, operating system lab were all established in early years to train the students in the field of its application.

Vision of the Program

To build a strong learning environment in the field of Computer Science and Engineering that responds to the challenges of the century and able to do all work related to program.

Mission of the program

M1: To produce computer science diploma graduates who are trained in design, implementation, testing and maintenance of computational systems through competitive curriculum in collaboration with industry and other organizations.

M2: Providing state of art facilities for enhancing skills in the field of computer science and engineering.

M3: To encourage ethical values and leadership abilities in the minds of students so as to work towards the growth of the society.

Program Education Objectives (PEO)

PEO 1 – Attainment of key principles and practices of computation and basic principles of engineering to ensure that technicians are able to apply their software development skills to implement practical systems consisting of software and/or hardware components.

PEO 2 – Get hands on domain knowledge to pursue higher education

PEO 3 – Become socially responsible technicians with good leadership qualities, ethical values and effective interpersonal skills.

Establish consistency of PEOs with Mission of the Program/Department

PEO	M1	M2	M3
PEO 1	✓	✓	✓
PEO 2	✓		
PEO 3	✓		✓
